

Ripon series

Designed by Studio Nooi, Italy

Combining luxurious comfort with a bold silhouette, the generous form of the Ripon armchair offers exceptional support with an oversized headrest. Featuring an innovative return swivel function to ensure it always looks neat in your space. With a smooth, stepless adjustment mechanism and a hidden handle for reclining, the Ripon armchair invites you to sink into its generous form and raise your legs on the accompanying Ripon footstool. Tailor-make your own Ripon chair in your favourite luxury fabric upholstery or traceable leather and choose between two colours for the chair's leg.

Meet the designer

Studio Nooi was founded by Giulia Pesce and Ruggero Bastita in Torino, Italy. Giulia and Ruggero built their approach to design while studying and working as designers in Italy and Denmark. Nooi derives from the Italian word “noi”, meaning “us” – the idea being that design is never an individual act but rather a collaborative process, involving designers, companies, users, artisans and technicians. Nooi's designs are always the result of good cooperation between people and influenced by society, art, nature and cultural heritage, and the designers are closely involved at every stage of the project development.
